STUDENT BEHAVIOR

PURPOSE

The Board of Trustees (Board) believes that every student has the right to learn in a respectful, safe, and inclusive learning environment and that every student has the right to learn in an environment that is free from distractions and disruptions that impede learning. The home, school, and community must work together to enhance the quality of the educational experience of all of our students. A positive school climate and culture characterized by mutual respect and the building of relationships will result in academic, social, and emotional growth for all students in the Washoe County School District (District).

DEFINITIONS

1. "District-Level Behavior Hearing" is a hearing conducted by a district-level hearing officer for violations to state law and other severe behaviors impacting the safety and welfare of others.
2. "Loco Parentis" refers to the legal responsibility of a person or organization to take on some of the functions and responsibilities of a parent. In the school context, this typically refers to the period of time when a student is in transit to and from the school setting if on a school bus.
3. "Positive Behavioral Interventions and Supports" is a proactive approach to establishing the individual behavioral supports and the equitable and inclusive social culture needed for all students in a school to achieve social, emotional, and academic success. 4. "Restorative practice" refers to interventions and supports to address and repair the impact harm has had on victims and the school community and to hold students accountable for their behavior.
5. "Social Emotional Learning" is a process designed to assist students in acquiring the knowledge, skills, and dispositions related to self-awareness, self-management, social awareness, relationship skills, and responsible decision-making.

- a. Prior to questioning a student regarding behavior that could result in a school transfer, a significant suspension (three days or more) or expulsion, a school/District administrator must attempt to contact the student's parent/guardian. However, school/District administration is under no obligation to contact a student's parent/guardian prior to questioning a student if exigent circumstances exist, such as the threat of destruction of evidence or District property, or if there is a risk to the health, safety, and welfare of the student(s) or school community. If circumstances prohibit this initial notification prior to questioning the student, the parent/guardian shall be informed as soon as practicable after the questioning.
